

Frequently asked questions

FREQUENTLY ASKED QUESTIONS (FAQ)Q) How sure are you of the credibility of the buyers and sellers in your data base?A) Our members are located from one end of the country to the other thus making it impossible for us to physically verify their online claims. Everyone is therefore advised NEVER to pay for goods or services without finding one way or the other to verify the claim of the seller. Q) What is the guarantee that I will get buyers after becoming a paid member?A) What our service guarantee you is the exposure of your business and contact details to the world in general through the internet 24/7, all year round. Buyers can then call you, visit your farm if possible and if impressed with what they see, strike bargains with you. This is better than when you sit in your farm, without publicity, without exposure, without advertising and with your contact details known only to buyers who already know you and who may not even want to introduce you to others because they wish to regularly buy your fishes Q) If I want to "stand-out" and be more visible than other farmers listed in your database, what do I do?A) You advertise what you sell or buy in your farm free of charge. To know how to do so, click on "How To Use This Website" and select "How To Advertise Free"
