How To Upload Gallery & Other Pictures

As a registered member of the website, login with your username and password, your Profile Page will show up, click on Photo Gallery, next, click on Upload Images From Your Gallery User panel. On the page that will open click New Picture, fill required information on the dialog box, browse your system to retrieve the picture and click Upload to complete the process. In order for you to successfully upload any picture, you need to first reduce its size considerably if it is heavier than 200kb. To do this, first right-click on the picture and select Edit, next click on Images and select Stretch/Skew in the dialog box that will open, reduce the Horizontal and Vertical percentages by 50% twice. Do the process twice so the size can reduce considerably. Right-click on the picture after this process and select Properties to view the new size of the picture. It must have reduced considerably if you did the exercise correctly. You can now upload the (now light) picture following the procedure earlier described for you in this paragraph..↑
